Think and feel?

1) we can use segementation for image mapping
2) Deep learning can be used to make the system accuracy more
3) It is good to reduce the complex problem to small sample and try solving it.

Identify the Possible solution.

Identify the Algorithms need to use

what do you think?

where should we start?

How to make progression in findings?

what are you going to Do?

Iam going to develope an Application.

Say and do?

PAINS

Fear.
Mistake in Detection.
Error during detection and Coding Error.

GAINS

Easy and Early Detection.
Well Devoloped User Interface.
Easy To Use.
Detects with High Accuracy and Perfection.
